Work Triangle – the secret recipe for a functional kitchen.

Sleek Kitchens offer you intelligent solutions to organize and optimize your kitchen space and storage. L-shape, C- shape, Island or Open Kitchens - whatever your kitchen type, we will help you minimize movement and enhance efficiency by adopting the Work Triangle concept in your kitchen. Our range of accessories and hardware too are designed on the principles of optimal utilization of space and productivity.

Sleek's storage solutions include tuffsmart, midway, magic corner, bold basket, flex basket and other innovative and pioneering products in the category. That's not all, by strategically dividing your kitchen into three zones – Cleaning Zone, Storage Zone, Cooking Zone, we enhance your kitchen time, so that even everyday cooking turns into a joyous experience.

A TOUCH OF ROYALTY

In the heart of Jaipur, where history whispers through every stone, there exists a timeless marvel, the Hawa Mahal. A monument that breathes tales of royal splendor and architectural finesse, it has inspired artisans for centuries.

It is from these very details that the Jaipur Rose Gold handles draw their inspiration. The shade itself is a tribute to Jaipur's eternal romance with rose gold. Crafted with porous textures reminiscent of Jaipur's architectural gem, these handles bring a touch of regal opulence to modern interiors.

TAP INTO HISTORY

Deep within the soul of Hampi's Vijaya Vitthala Temple, lies a treasure—a stone chariot that defies time itself. Inspired by its grandeur, emerges Hampi Stone Grey handles. Their matte finish reflects the ancient stones of Hampi, while the gentle stone-grey shade embodies the calm resilience of history.

Each handle tells a tale of heritage and strength, inviting you to infuse your living spaces with the essence of Hampi's storied past—a place where legends are chiseled in stone and echoes of history resonate through modernity.

THE DIVINITY IN DETAILS

From the mystical realm of Thanjavur, where spirituality meets artistic mastery, unfolds a saga of enduring beauty: the revered Nataraja brass figurines. Inspired by Thanjavur's legacy and the divine grace of Nataraja, **Thanjavur Antique Brass handles**, adorned with a gunmetal texture and brass shade, transcend mere fittings—they embody a journey through centuries of craftsmanship.

Each handle mirrors the cosmic dance of Lord Shiva, sculpted with reverence and precision, inviting you to experience centuries of cultural grace with every touch.

FEEL THE RICHNESS

In the mist-kissed hills of Madikeri, Coorg, where the aroma of coffee beans dances through lush plantations, a tale of inspiration unfolds. Imagine tracing your fingers over morning dew and feeling the comforting warmth of a freshly brewed cup—a perfect embodiment of Coorg's coffee culture.

Crafted with a gunmetal texture and in coffee shade, Coorg Coffee handles capture the rich heritage and sensory delight of Coorg. Each handle is meticulously detailed, echoing the earthy hues and robust flavours synonymous with Coorg's renowned coffee beans.

BRIGHT IDEAS
FOR BEAUTIFUL KITCHENS

KESSEBÖHMER

The name Kesseböhmer stands for innovative solutions and a powerful blend of design, function and quality. Today the Kesseböhmer group is still owned and managed by the current generation of the founding family.

Our core competence is in metal processing. We work with wire, flat band and tubing and our products are finished in our in-house electroplating and powder-coating facilities. Strong customer orientation has helped us to achieve and maintain our position as the leading supplier of functional fittings for kitchen units.

We supply elegant, high quality solutions for brilliantly organised kitchen storage. Our solutions help end users to make best use of available space and to streamline work processes. These benefits are strong selling points for kitchens.

In addition, kitchen manufacturers and kitchen fitters profit from the simplified assembly and easy adjustment of our pull-outs and other fittings. Many of our products are assembled without tools using snap-on connections. It saves time and ensures that the end result meets the highest standards.

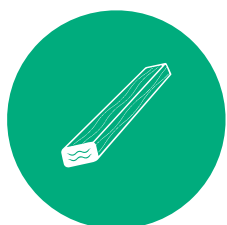

Kesseböhmer has a high level of vertical integration, with all production processes in-house. We also engineer and build key elements of our production machinery and tooling. This strategy cuts development time from a new idea to a quality product:

Functions that delight. Designs that impress.
Quality that sets standards.

WE ARE A STRONG PARTNER FOR YOUR BUSINESS.
